Re: New Flyer 2009 Delivery Performance Award

New Flyer Industries Canada ULC has announced the 2009 Supplier Delivery Performance Award results. After careful review of your firms Supplier Delivery metrics, we are pleased to confirm that you qualify for the following Delivery Performance Award:

**Black Diamond Engineered Products Inc.
2009 Bronze Level**

The 2009 Delivery Performance Award recognizes suppliers who have provided New Flyer with 12 months of on-time deliveries within New Flyer's established performance standards. This is an outstanding achievement by your firm and we encourage you to share this accomplishment with everyone in your organization. Congratulations on being one of a select group of valued suppliers to be formally recognized for achieving this level of performance.

We are pleased to note that with the success of this program and your strong commitment to it, we have been able to eliminate our warehouses and deliver all incoming parts direct to the point of use on the production line as well as successfully launch iSupplier, our order management Web Portal used for all communications with suppliers. Thank you for being a part of this success and we encourage you to strive to maintain or achieve the Gold standard of 99% on-time for your Supplier Delivery Performance.

New Flyer Industries Canada ULC
